GETTING DOWN TO THE IMPORTANT DETAILS:

DESIGN:

We provide quality design for websites that are mobile friendly / responsive. We are not Web Developers and can make only minor CSS and / or HTML edits. We specialize in applying design strategies to ensure the professional look of your website.

You'll have plenty of opportunities to review our work and provide feedback. We expect you to regularly review the website and provide comments.

If, at any stage, you change your mind about what you want to be delivered and are not happy with the direction our work is taking, then you will pay us in full for the time we've spent working with you until that point and terminate this contract.

TEXT CONTENT:

Unless agreed separately, we're not responsible for inputting text or images into your content management system or creating every page on your website. We provide professional copywriting and editing services, so if you'd like us to create new content or input content for you, we can provide a separate estimate for that. We will input images that you supply provided that they are licensed by you through purchase, or are your own intellectual property.

GRAPHICS:

You should supply graphic files in an editable, vector digital format. You should supply photographs in a high resolution digital format, either JPG or PNG. If you choose to buy stock photographs, we can suggest stock libraries. If you'd like us to search for photographs for you, we can provide a separate estimate for that.

HTML, CSS and JavaScript

We specifically use paid Themes, which are exempted from the cost for Web Design. We prefer that the websites we design are hosted with GoDaddy.com and we prefer that Themes are purchased from our specified Theme reseller(s).

BROWSER TESTING / MOBILE / RESPONSIVENESS OF WEBSITE:

Browser testing no longer means attempting to make a website look the same in browsers of different capabilities or on devices with different size screens. It does mean ensuring that a person's experience of a design should be appropriate to the capabilities of a browser or device.

We test our work in current versions of major desktop browsers including those made by Google, Microsoft Edge and other similar popular browsers. We test our work with Mobile Device Emulators. We will not test in other older browsers, unless we agree to do separately. If you need an enhanced design for an older browser, then we can provide a separate estimate for that service.

MOBILE BROWSER TESTING:

Mobile browser testing Testing using popular smaller screen devices is essential in ensuring that a person's experience of a design is appropriate to the capabilities of the device they are using.

We test our designs in Mobile Device Emulators for:

Phones

iPhone 6 (375 x 667)

iPhone 5 (320 x 568)

iPhone 4 (320 x 480)

Galaxy S6 (360 x 640)

Xperia Z3 (360 x 598)

Lumia 920 (384 x 640)

Phablets

Nexus 6 (412 x 690)

Android: Google Chrome on Android Emulator

We won't test in Blackberry, Opera Mini/Mobile, specific Android devices, Windows or other mobile browsers, unless we agreed separately. If you need us to test using these, we can provide a separate estimate for that.

TECHNICAL SUPPORT:

We're not a website hosting company so we don't offer support for website hosting, email or other services relating to hosting. You may already have professional hosting and you might even manage that hosting in-house; if you do, great. If you do not currently have this arrangement in place, then we can setup an account for you at one of our preferred hosting providers. We can setup your site on a server / host provider such as Godaddy; plus statistics software such as Google Analytics and Webmaster Tools (if a valid owned Gmail e-mail address is provided). Then the updates to and management of that server will be up to you. You can review the Fee Schedule for details on additional digital marketing options.

Compatibility is not guaranteed for any of the items as noted. You further deem us not liable for website hacking theme breakage, and issues relating to website propagation, as well as e-mail issues. We will do our best to backup your website, if you choose Godaddy as your hosting provider. We do not maintain a separate backup of your website in addition to the hosting provider chosen, but we can do so under a separate agreement for fee to be discussed.

SEARCH ENGINE OPTIMIZATION (SEO):

We don't guarantee improvements to your website's search engine ranking, but the web pages that we design are accessible to search engines. We offer a fabulous program for top ranking your website, known as the Online Max Package. Please review our Fee Schedule for SEO / website Search Engine ranking options.

CHANGES AND REVISIONS:

We don't want to limit your ability to change your mind. But there will be no more than two major revisions to the website design. The price at the beginning of this contract is based on the number of weeks, which we estimate that will need to accomplish everything you've told us you want to achieve; but we're happy to be flexible. If you want to change your mind or add anything new please specify details before a major design is applied. Once the website is considered and deemed complete there will be additional costs for continued changes / revision on an hourly or project based basis, which can be provided in a separate estimate. Generally each additional change / modification, after website is approved and deemed complete, is \$25, unless otherwise agreed to in writing.
